(6 months)

Coding Bootcamp
Fast paced, in-depth course focused on full stack web development.
Passed with a 3.7 (92%).

Accomplishments

CyberPatriot-XII
2020 Semifinalist
13th Place (6,760 total teams)

CyberPatriot
"Puts teams of high school and middle school students in the position of newly hired IT professionals tasked with managing the network of a small company. Through a series of online competition rounds, teams are given a set of virtual operating systems and are tasked with finding and fixing cybersecurity vulnerabilities while maintaining critical services."
On my team I worked on the Linux based machines (Ubuntu and Debian)
