Kyle Lucas
Web Developer

Experience

Freelance Web Development
Dec 2022 - Present
(2 months)

Front-end Development
Created mostly single page applications and sites for clients. Clients include non-profit organizations, independent contractors, and single individuals (portfolio sites). These sites are often developed using React, Bootstrap, and/or CSS + HTML.

Walmart
Jul 2019 - Dec 2022
(3 years 5 months)

Fresh Cap Associate
Stocked, cleaned and helped customers in the produce, meat, bakery, and deli area of the store.

Freelance Coding
2019 - 2021
(2 years)

Discord Bot Developer
Created bots on the text communication platform, Discord. Bots were created using JavaScript and NodeJS. Each bot had various functions such as chat filtering, automating moderation tasks, message posting, and more.

Education

University of Denver
Jun 2022 - Dec 2022
(6 months)

Coding Bootcamp
Fast paced, in-depth course focused on full stack web development.
Passed with a 3.7 (92%).

Accomplishments

CyberPatriot-XII
2020 Semifinalist
13th Place (6,760 total teams)

CyberPatriot
"Puts teams of high school and middle school students in the position of newly hired IT professionals tasked with managing the network of a small company. Through a series of online competition rounds, teams are given a set of virtual operating systems and are tasked with finding and fixing cybersecurity vulnerabilities while maintaining critical services."
On my team I worked on the Linux based machines (Ubuntu and Debian)

Destination Imagination
Three Time Global Finalist
Four Time State Champion

Destination Imagination
Destination Imagination is a team based problem solving competition. Students utilize critical-thinking, creativity, and teamwork to come up with, build, and present solutions to problems. Their solutions are judged both on objective criteria of the problem and the quality of their performance/presentation.
